ABOUT PYLE PERCUSSION

Pyle Percussion has led the way in the design and manufacturing of marching percussion stands and carts since 1988. Mark Pyle has been able to draw from his knowledge and experience as a former High School Band Director and Professional Percussionist to design the most dependable stands and carts for every need. Our line of products represent the best in simplicity, mobility and durability at an affordable price. As the world of marching percussion evolves, our product line is constantly being re-shaped to meet your performance needs.

Have an idea for a custom stand or rack? We can build to suit your specific needs with no additional custom charges. We would be more than happy to hear from you concerning your unique specifications.

Pyle Percussion stands and carts are made from thick wall, square, tubular steel. They are assembled with seamless welds and self-locking nuts and bolts. There are no set screws, rivets or cast metal parts that can loosen or break. A black speckled finish provides years of wear free appearance. All folding stands fit between the seats of stadium bleachers.

Let Pyle Percussion be a part of your success in the years to come.

Keep on Drumming!

FLAT FREE TIRES

FLAT FREE TIRE - \$75 EACH

Pyle Percussion is excited to announce our revolutionary Flat Free and Maintenance Free Tire. This solid micro-cellular polyurethane foam tire is mounted on a heavy duty steel rim. This new tire offers the same advantages of a pneumatic tire without the possibility of going flat. The black tread is non-marking. Each Flat Free Tire has over 1,000,000 tiny air bubbles and each bubble has the same cushioning air pressure. The tire becomes firmer as weight is increased. The unique revolutionary technology not only cushions giving a ride that is very similar to an air tire, but the tires carry the load.
